## Incendo Completes Production on Five Romantic Comedy Films And Will Begin Production of 12 New Features

Montreal, October 29, 2020 – Set against newly adapted film production and COVID-19 health and wellness regulations, Incendo has safely completed production on the organization's next slate of Rom Com films. The five movies have wrapped on-schedule by creating an innocuous filming environment, meticulously regulating all on-set health standards, and the collaborative efforts across production cast and crew. Incendo will begin production of an additional 12 features in early 2021.

By choosing filming locations in Canada and New Zealand and strategically planned production, Incendo was able to keep safely on schedule. At the same time, these settings embody beautiful backdrops that exemplify the conceptual look, feel and unique authenticity essential for the genre.

"Overcoming the obstacles of filming during a global pandemic has been challenging, and it is because of the exceptional hard work and dedication of our cast, crew and co-production partners that we were able to accomplish wrapping each production safely and on time, all the while maintaining the creativity we envisioned," said Ian Whitehead, Head of Development and Production. "I am exceedingly proud of every individual who has had a hand in bringing these movies to life."

The completed television movies round out a record-setting number of produced features for Incendo since filming began in late July.
